Features

SILENCE MEETS PERFORMANCE

Skived coppercold plate, high-RPM pump and High-Performance Fluid Dynamic Bearing Fans provide superior cooling performance for modern Intel & AMD processors without sacrificing longevity.

COOLER BY DESIGN

The Valkyrie Dragonfang is designed to embrace gaming aesthetics and to perfectly fit any modern PC. It features 360 degree rotatable pump cover with ARGB LED lightning.

A STRONG, SILENT TYPE RGB FANS

Combination of power and silence with included Valkyrie X12 fans. Premium build quality and fluid dynamic bearings that offer reliable performance even in the long-term use. The frame features attractive addressable RGB that will fit to any PC.

Features

5

5 YEAR WARRANTY

LONG LASTING DURABILITY

The FEP corrugated braided sleeve tubing ensures the coolant stays contained within the device avoiding evaporation, this coupled with a 5 year warranty means you can depend on it working to its full potential over time!

EASY AND FAST INSTALLATION

It comes with all the necessary components, pre-applied thermal paste and comprehensive user manuals in several languages for easy installation. An ideal solution for beginners looking to upgrade from AIR Cooling to Liquid Cooling.

"Valkyrie Dragonfang 360 is an AiO cooling system that offers special features in terms of appearance and scope of delivery, but above all it can also offer considerable cooling performance"
