

The perfect combination of high performance and robustness in moist applications

ATTIX 40 represents a superior suction power in a compact and flexible solution. This vacuum cleaner is silent, small and mobile. A perfect solution for Commercial and Industrial use. The stainless steel container offers a robust and easy to clean container. While dealing with fine dust the **Push&Clean** or **XtremeClean** filter cleaning system offers a comfortable and quick way to clean the filter.

The size and big performance of the ATTIX 40, along with the wide range of available models, make it a perfect choice for people who needs to pick up any sort of wet or dry debris. The design offers you cable storage, accessory storage and a big tool deposit to keep all you need at hand. Operating costs are minimized with the washable PET Fleece filter elements, and the low working noise level lets you work when others are nearby, without disturbing them.

The -21 models are equipped with a convenience socket so no need for a extra extension cable, just plug your tool into the vacuum cleaner.

Automatic On/Off models are the choice of people who use the machine with electric hand tools because starting or stopping the tool starts and stops the vacuum, as well. An optional Airbox is available which performs with the same function when using pneumatic tools.

Picture shown may not represent model quoted

- High quality stainless steel container
- Low working sound level - **SilentPower** - high performance that is seen, but not heard
- MultiFit accessory system for the ultimate in task flexibility
- Washable PET fleece filter with minimum 99.9% filtration efficiency
- Accessory storage and tool deposit

ATTIX 40 is the ideal Wet&Dry vacuum cleaner, if you need high performance in combination with a compact quality stainless steel container. The robust and easy to clean stainless steel container and the high suction power makes ATTIX 40 the perfect solution for commercial and industrial use.
