MODECOM MC-M9.1

Wired optical mouse

Material

The surface material has a nice feel and provides high level of convenience.

Sensor

MODECOM MC-M9.1 was equipped with a 800/1200/1600 DPI sensor. 1600 DPI is optimal for convenient work with high-resolution displays.

Colour charts

Mouse is not only to be reliable and not tire your hands. It also should look nice, therefore we decided to make as many as three colour versions.

Long cable

Long 180-cm cable will give you freedom when you work. You don't have to worry about its length if you have a desktop computer.

Ergonomics above all

Mouse has to be comfortable. It mustn't tire your hand. And this is what MC-M9.1 is like. This device doesn't make your hands tired even after many hours of work.
