RS-02 is a versatile, portable Bluetooth radio that combines classic features with modern technology. With its built-in antenna, you can enjoy your favorite radio stations without interference, while Bluetooth 5.3 allows for a quick and wireless connection to your phone. Whether you want to listen to the radio or your own playlist, RS-02 gives you complete freedom of choice. Using the device is exceptionally simple and intuitive. Convenient knobs let you easily tune radio frequencies and adjust the volume to your preference. A stable Bluetooth connection with a range of up to 10 meters ensures uninterrupted music playback wherever you are. RS-02 is the perfect companion for home, work, travel, and outdoor gatherings. Its compact design makes it easy to carry, while the high-capacity battery provides hours of wireless playback. The classic design combined with modern functionality makes RS-02 a great fit for any space. Enjoy your favorite music and radio wherever you go – with RS-02, you have everything in one device!
