Fire Brigade working boat, metal/plastic

Siku Fire Brigade working boat Fire brigade boat model Preassembled 1:50:

Multi-functional fire brigade boat with vehicle - On lakes and rivers, the fire brigade is in action with its workboats. Mostly it's a case of dealing with accidents involving water-polluting products, setting up oil barriers when leaks occur, providing technical assistance, or extinguishing small fires on damaged boats. For this, the hose reel rotates and the hose can be unrolled. For action on land, the Ford F150 pickup is on board as well. To allow this, the ramp folds down when the boat comes to land. Open the doors, get in, switch on the flashing lights, and into action!
