

Marmitek Subwoofer Anywhere 640 - Wireless audio transmitter and receiver for subwoofer

Brand : Marmitek

Product code: 25008418

Product name : Subwoofer Anywhere 640 - Wireless audio transmitter and receiver for subwoofer

Subwoofer Anywhere 640 - Wireless audio transmitter and receiver for subwoofer

Marmitek Subwoofer Anywhere 640 - Wireless audio transmitter and receiver for subwoofer:

The Subwoofer Anywhere 640 makes your subwoofer wireless. Therefore, you can place it anywhere you want.

Because bass tones are difficult to locate, you're fairly free in determining the placement of the subwoofer. There is no ideal position for every subwoofer. The cheaper models are often positioned best in a corner, while the more expensive versions often sound better when they have more room available. The type of audio can also influence the ideal position. Even more important are your personal preferences and your living room's physical situation.

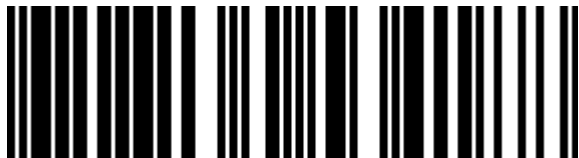

So, there is no other option than to test different positions. The Marmitek Subwoofer Anywhere 640 gives you extreme flexibility.

How does it work?

Very simple! You connect the transmitter to your surround set and the receiver to your subwoofer. Both should be powered. Then, the sound is automatically transmitted.

| Features                    |                           | Weight & dimensions            |                 |
|-----------------------------|---------------------------|--------------------------------|-----------------|
| Type *                      | AV transmitter & receiver | Receiver dimensions (WxDxH)    | 90 x 75 x 22 mm |
| Maximum transfer distance   | 20 m                      | Receiver weight                | 160 g           |
| Modulation                  | GFSK                      | Transmitter dimensions (WxDxH) | 90 x 75 x 22 mm |
| Bandwidth                   | 0.002 Gbit/s              | Transmitter weight             | 160 g           |
