

Cellularline Wireless Power Bank MAG 5000 Portable charger compatible with the MagSafe system

Brand : Cellularline

Product code: PBMAGSF5000WIRK

Product name : Wireless Power Bank MAG 5000 Portable charger compatible with the MagSafe system

Wireless Power Bank MAG 5000

Cellularline Wireless Power Bank MAG 5000 Portable charger compatible with the MagSafe system:

MAG 5000 is the portable charger compatible with the MagSafe system. For effective and safe recharging, simply attach the magnetically attached Power Bank to an iPhone equipped with the MagSafe system, no need for cables or precise alignment. The integrated magnets are designed to firmly maintain the iPhone in place and not interfere with its function. MAG 5000 features LED indicators to monitor the Power Bank's remaining charge status and a USB-C port for recharging when needed. The ring, placed on the external body, is designed to perform a dual function: STAND, to display the iPhone screen when it is charging, and HOLDER to use while moving. The thin and compact design lets you take MAG 5000 always with you and recharge an iPhone anywhere, no need for cables, ensuring maximum freedom of movement. The iPhone is recharged without or with a MagSafe case.
