Product name : IB-138SK-B-II

Mobile rack for 1x HDD/SSD for 1x 5.25" bay with lock and LED ring

ICY BOX IB-138SK-B-II Carrier panel Black:

Innovative design

That the carrier can be disconnected from the mobile rack, that is nothing new. But making the carrier hermetic so it is safe for transport is. The fan is not installed as usually on the platine, but it is installed on the front of the carrier, this way the air circulation is better.

Not only a lock

What seems like a normal lock is much more than that. as long as the lock is not closed, no power will come to the HDD. In this way it is impossible to forget locking the media.

All good things are three

The IB-138 is available in three different colors: Beige, black and silver. It supports three SATA versions (I/II/III) with up to 6 Gbit/s transfer rates and three LED indicators to inform regarding HDD access, power and deco-LED (Blue-eye). Finally primarily 3.5" HDDs belong in the slot.
