Key Notice: Keep for Future Reference

Read theInstructions for Use

Do not insert pins.

- If the appliance is likely to be used for an extended period, such as when the user is asleep, the controller should be adjusted to the recommended setting for continuous usage.
- Do not use when wet.
- Not to be used by individuals who are unable to care for themselves, infants, or those insensitive to heat.
- When not in use, store as described (See storage equirements).
- Allow the appliance to cool down before folding it for storage.
- Do not place objects on the appliance during storage, as they may cause creases.
- Regularly check for signs of wear or damage to the appliance. If these signs are present or if the appliance has been misused, return it to the supplier before using it again.
- This appliance is not intended for medical use in hospitals. This appliance should not be used by children unless their parents or guardians have pre-set it or have provided sufficient guidance to the child on how to use it.

Product Disposal Precautions

Please support the recycling of rechargeable batteries (lithium-ion batteries)

Danger

This product's battery is a dedicated rechargeable battery that should not be used in other products. Do not charge the battery once it has been removed.
- Do not throw into the fire or expose to excessive heat.
- Do not puncture with nails, subject to heavy impact, or disassemble.
- Do not directly connect the battery's positive and negative terminals with metal
- Do not store it with necklaces, hairpins, etc.
- Do not charge, use, or store in high-temperature locations such as near a stove or under direct sunlight
- All of the abovementioned scenarios can result in overheating, fire, or bursting.

Warning

Place the removed rechargeable battery out of the reach of infants to prevent accidental ingestion
- If swallowed, seek medical attention immediately.
- If battery leakage occurs, do not touch the liquid with bare hands. Follow the safety instructions below:
- There is the risk of blindness if battery fluid contacts the eyes. Do not rub the eye with your hands. Rinse with clean water immediately and seek medical attention. If battery liquid gets on the body or clothing, it may cause skin inflammation or injury. Rinse with clean water, and if discomfort persists, seek medical attention mediately.
- Disassembly is only permitted when the product is being discarded. Failure to comply may result in fire, electric shock, injury, or other accidents. Please contact the retailer where you purchased the product for repairs (except battery replacement).

The lithium-ion battery used in this product is a valuable recyclable resource. Please hand it over to a professional organization capable of recycling rechargeable batteries before disposal. Before discarding the appliance, the battery must be removed, and the appliance must be unplugged. Dispose of the battery safely.

Removal Steps:

1. Please open the non-button plastic shell using professional tools.
2. Disconnect the battery terminal leads.
3. Remove the battery.

Troubleshooting Instructions

Please check if the following situations have occurred if the product is not working properly. If our provided suggestions do not resolve the issue, please return the product to the dealer for repair.

1. Knee protection product does not start
Reason: The product is still connected to the household power socket, the battery is depleted, or the power button was not firmly pressed.
Solution: Remove the charging cable from the device; please charge; press the power button firmly until it clicks into place.
2. Charging indicator light does not illuminate
Reason: Type-C charging cable is not properly connected into the power socket.
Solution: Please insert the Type-C2 charging cable properly into the power socket.
3. Only lasts a few minutes even after just charging
Reason: Battery life has been exhausted (approximately 5 years).
Solution: Please consult the dealer (do not replace the battery yourself).
4. The body does not heat up
Reason: The product may not function properly if used outside the recommended environmental temperature range.
Solution: Use within the recommended temperature range of 0 to 35℃.
5. Product stops working during operation
Reason: Battery has been depleted; the product automatically stops working after approximately 20 minutes.
Solution: Charge if the battery is low.

Cleaning and Maintenance

1. Main Unit Care
Proper care should be taken of the main unit; clean it by wiping with a soft cloth.
2. Fabric Area of the Product
The fabric area does not support washing with water. When cleaning and maintenance are needed, please use alcohol to sanitize and remove sweat stains or wipe with a clean damp towel.

Precautions

1. The usage time is 20 minutes per session; please assess your knee condition and adjust the usage accordingly.
2. It is recommended to use the "low-grade" mode when you first start using this product.
3. If you feel pain in your legs or around the knees, please stop using this product immediately.
4. If any problems with your skin or legs occur during use, please stop using this product immediately and consult a physician.
5. It is advised not to overuse the massage function.
6. When using this product, your knees may temporarily turn red. This does not indicate a problem; if this symptom persists without relief, please consult an orthopedic surgeon.
7. The product's straps may damage stockings when worn; please remove the stockings before use!
8. The surface may heat up when the product is used for an extended period; this is a normal phenomenon.

⚠ Warning: Incorrect operation may lead to dangerous related content.

⚠ Note: Incorrect operation may result in personal injury or property damage.

Warning

1. This product has a hot compress function. Please use it with clothing in between to avoid low-temperature burns when using the hot compress function.
2. Do not use the hot compress function of this product continuously for more than 30 minutes, otherwise there may be a risk of low-temperature burns.

Product Precautions

- This product contains a lithium battery. Do not disassemble, modify, immerse in water (controller), or throw into fire, as this may cause damage to the product.
- If you feel unwell due to abnormalities with this product, stop using it immediately. Consult a doctor and follow medical advice if you notice anything unusual on your body or skin.
- Do not store within reach of children and infants. Furthermore, do not allow children to touch or operate this device since it might cause burns, electric shock, or bodily harm.
- Do not damage, modify, forcefully bend, or pull the power cord. Also, do not place heavy objects on or pinch the power cord.
- Do not use the product in a bathroom or shower room.
- Stop using this product immediately if you experience pain or discomfort in your skin or other parts of your body.
- When cleaning, be sure to unplug the adapter from the household power outlet.
- Please handle this product's packaging bag properly, keeping it away from infants and young children.
- Do not wear the main unit during any other activities.
- Do not lie or sit on the product.
- Do not subject the product to strong impacts and loads.
- Do not use the product covered with a blanket or quilt.
- Do not use the product while sleeping.
- The device has a heating surface, so those who are insensitive to heat should use it with caution.

Use with Caution for Certain Individuals

Those with the following conditions must use with care or under medical guidance.

- Individuals with leg nerve disorders or impaired skin sensation.
- Individuals with metal, silicone, or plastic materials injected into the knee due to fractures or orthopedic surgeries.
- Individuals who are not sensitive to heat.
- Individuals with leg or knee sequelae from traffic accidents, etc.
- Individuals who have or have had leg diseases (such as tendon injuries, joint deformities, fractures, varicose veins, etc.).
- Individuals with implanted medical electronic devices, like pacemakers, that are easily affected by electromagnetic malfunctions.
- Individuals who have been diagnosed with a loss of temperature sensation.
- Individuals with malignant tumors.
- Individuals with heart disease.
- Individuals in the early stages of pregnancy or shortly after childbirth.
- Individuals with sensory impairment due to diabetes.
- Individuals with skin scars.
- Individuals who need rest and those in poor physical condition.
- Individuals with osteoporosis, severe fractures, sprains, muscle pain, or acute (head) pain.
- When the body temperature is 38°C (fever).
- Individuals with acute inflammatory symptoms, fatigue, chills, changes in blood pressure, and other severe or weakening symptoms.
- Individuals receiving treatment in medical institutions.

Storage Requirements

Please keep this product out of the reach of children and away from moisture, high temperatures, direct sunlight, and splashing water. If not operational for an extended period, switch off the power and ensure it is charged once every two months.

Usage and Storage Environment

Use this device within a temperature range of 0℃ to 35℃, and store the device and accessories within a temperature range of -20℃ to +50℃. Temperatures that are too high or too low may result in malfunction.

FC Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
* Reorient or relocate the receiving antenna.
* Increase the separation between the equipment and receiver.
* Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
* Consult the dealer or an experienced radio/TV technician for help.

CE This device in compliance with the essential requirements and other relevant provisions of Directive (EU)2023/988.
CAUTION : RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.
EU Compliance Statement:
SKG Health technology Co.,Ltd. Here by declares that this device is in compliance with the essential requirements and other relevant provisions of the Directive (EU)2023/988. A copy of the EU Declaration of Conformity is available online at https://www.skg.com/pages/skg-declaration-of-conformity.

Old electrical appliances must not be disposed of together with the residual waste, but have to be disposed of separately. The disposal at the communal collecting point via private persons is for free. The owner of old appliances is responsible to bring the appliances to these collecting points or to similar collection points. With this little personal effort, you contribute to recycle valuable raw materials and the treatment of toxic substances. Caution:
- If you experience skin irritation when using the body massager, please refrain from using it, and wait two to three days to see if your symptoms ease. If symptoms persist or worsen, please consult a physician.
- If you have eczema, allergies or asthma, you may be more likely to experience a skin irritation or allergy from using the massager.
* The appliance it must only be supplied at safety extra low voltage corresponding to the marking on the appliance.
* This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
* Children shall not play with the appliance.
* Cleaning and user maintenance shall not be made by children without supervision.
